SUMMARY

Final-year B.Tech CSE student and **Full Stack Intern at ImpulseAI**, where I keep a production AI review-automation pipeline (n8n, OpenAI, Google Business Profile API) running reliably. I build end-to-end with React/Next.js, Node.js/Express and MongoDB/PostgreSQL, and have shipped full-stack products ranging from an 8-agent AI video pipeline to a live industrial-IoT monitoring dashboard. Looking for SDE and Full Stack Developer roles.

TECHNICAL SKILLS

Backend	Node.js, Express.js, FastAPI, Flask, REST APIs, OAuth2, NextAuth, Webhooks, MQTT
Databases	MongoDB, PostgreSQL, SQLite, Supabase, Prisma ORM
AI & Automation	n8n, OpenAI API, Gemini API, multi-agent pipelines, YOLOv8, MediaPipe, Whisper
Tools & Testing	Git/GitHub, GitHub Actions (CI/CD), Jest, Postman, Stripe, Razorpay

EXPERIENCE

ImpulseAI — Full Stack Intern — Jan 2026 – Present | Delhi (Remote)

- Stabilized a production Google Reviews automation built on **n8n**, the **Google Business Profile API** and the **OpenAI API**.
- Fixed **OAuth2 token refresh**, **webhook failures** and **broken data mapping**, so reviews sync in real time without restarts.
- Improved AI sentiment analysis and reply drafting to produce more accurate, on-brand responses.
- Enhanced the analytics dashboard to track rating trends, sentiment, review volume and response times.

Freelance Web Developer — Self-Employed — 2024 – Present | Lucknow

- Delivered 2 production websites end-to-end, from client requirements through deployment and post-release fixes.
- Integrated 2 REST APIs (appointment booking, Google Maps) with Flask backend logic, validated with Postman.

PROJECTS

Rishabh Studio — AI Video Generation SaaS GitHub ↗ *React · FastAPI · Gemini · Whisper · FFmpeg*

- Built an **8-agent Gemini pipeline** that turns a text prompt into a finished Short or long-form video, with Kokoro TTS narration, Whisper captions and FFmpeg/MoviePy assembly.
- Runs on free, local tooling on a 4 GB-VRAM laptop; fixed a Gemini import race, dependency conflicts and a React polling bug.

EdgePilot AI — Industrial IoT Platform (Tata InnoVent) GitHub ↗ Live ↗ *Next.js · TypeScript · FastAPI · MQTT · Gemini*

- Built a mission-control dashboard with real-time **MQTT sensor analytics**, predictive maintenance and a 3D digital twin.
- Added YOLOv8n/MediaPipe safety monitoring and a Gemini operations copilot on FastAPI; deployed live on Vercel.

CareerOS AI — Career Readiness Platform GitHub ↗ *Node.js · Express · Prisma · SQLite · Gemini*

- Designed an explainable **40/30/30 career-score engine** over parsed resumes and GitHub activity, across 10 API route modules.
- Centralized all Gemini calls behind daily quota caps, token-bucket rate limiting and 24-hour caching to stay within free-tier limits.

Waypoint — AI Learning Path Recommender (Amplified HCL) GitHub ↗ *Next.js 14 · TypeScript · Gemini · Recharts*

- Profiles a learner through conversation and generates an adaptive roadmap with prerequisite graphs, gamified progress and Gemini-graded assessments with an offline fallback.

Vendly — Multi-Vendor E-Commerce Platform GitHub ↗ *Next.js · Prisma · MongoDB · Stripe Connect · Jest*

- Built a marketplace with **per-vendor payouts via Stripe Connect**, role-based auth (NextAuth), inventory, coupons and admin sales analytics; Jest tests run in GitHub Actions CI.
